Education

Hunter College of The City University of New York   *Expected May 2026*
Bachelor of Science in Computer Science   *New York, NY*
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Discrete Mathematics, Computer Architecture, Calculus 1

Professional Experience

Software Engineer Intern   *July 2024 – Present*
Students Who Code
- Collaborating with a team to develop and maintain web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Writing and testing code for server-side and client-side development.
- Implementing RESTful APIs and integrating third-party services.
- Participating in code reviews, debugging, and refining application features.
- Gaining experience in agile development methodologies and version control using Git.
- Contributing to project planning and design discussions.

Administrator/IT   *Oct. 2022 – Present*
Scott Baron & Associates P.C.
- Communicating/assisting with outsourced technical support companies to ease the process of -upgrading and maintaining hardware/software properties.
- Ensure all computer hardware/networks are functional and troubleshoot any issues that occur.
- Resolved 50+ general and technical inquiries from clients and staff.
- Coded over 100 legal document templates using Neos software codes to be generated for everyday use to ensure smooth functionality and transfer between a team of 10+ paralegals and attorneys.

Projects

"HoneyDo" Project – HackPrinceton Fall '23   https://github.com/ShohruzE/hackprinceton-f23
Participated in HackPrinceton at Princeton University in 2023.
- Collaborated with a team of three to develop a web application aimed to enhance the learning experience for all students using OpenAI's API, React, Node, Express.
- Learned React.js and sharpened JavaScript proficiency through implementing asynchronous functions and handling GET and POST API responses efficiently, ensuring a responsive and performant application.

Technical Skills

Programming Languages: C++, Python, JavaScript, HTML, CSS
Libraries and Frameworks: React.js, Node.js, Express.js, MongoDB
Tools: Visual Studio Code, GitHub
Soft Skills: Attentive, Eager, Team-oriented, Collaborative
